

# PHARMACEUTICAL

*Production Lines*  
*Laboratories*

Whether it's a production or assembly line, clean room, laboratory, or chemical washdown area, ProREZ can design and specify the right seamless floor coating solution for your space.

*The ProREZ™ Advantage... Innovation beneath your feet.*

*The pharmaceutical industry sector typifying where form meets function.*

*Whether processing, packaging, labs, clean rooms, or chemical wash-down areas, these critical floor spaces need to be highly dependable, durable, long-lasting, hygienic, and compliant — seamless flooring solutions that are non-slip, chemical, abrasion, impact, puncture, and microbe-resistant — meeting or exceeding high functional, design, safety, and cleanliness standards.*

## **INSPECTION-READY FLOORS**

ProREZ is very aware of the many critical work-process and environmental factors affecting the pharmaceutical floor. In addition to heavy wear and tear, these types of floors must be easy to clean and maintain, as well as support strict safety and sanitation regulations administered by agencies such as the FDA, OSHA, and others. No one system does it all. ProREZ engineers, customizes, and specifies seamless floor coating, resurfacing, and integral cove base systems designed to pass rigorous health and safety inspections.

---

## **RECOMMENDED FLOORING SOLUTIONS**

### **STORAGE & WAREHOUSING**

Light Duty Clear Systems (20-40 mils): **ProShield CS** | **ProCryl CS**

Light Duty Solid Color Systems (20-40 mils): **ProShield SC** | **ProCryl SC**

Light/Medium Duty Solid Color Non-Skid Systems (1/16"-1/8"): **ProShield 100B/200B**

### **PRODUCTION, CORRIDORS, RECEPTION, & LAB AREAS**

Medium Duty Solid Color Systems (1/16"-1/8"): **ProShield SL** | **ProCryl SL** |

**ProShield MR** | **ProCryl Flex**

### Hygienic and Safe

Pharmaceutical facilities accumulate dirt, bacteria and other contaminants, yet must be hazard-free, antimicrobial, hygienic environments. ProREZ seamless, non-porous, waterproof, protective flooring finishes balance slip-resistance with ease-of-cleaning and sanitization, ensuring safety under foot for personnel and visitors, while meeting or exceeding all local, state, federal inspection and safety requirements.

### Low Odor, Fast Setting Materials

Busy pharmaceutical companies cannot afford expensive downtime, tainted with hazardous odors. Maintaining indoor air quality with low-odor, zero VOC materials, and offering quicker installations and turn-around times for repairs, refurbishments, or new installations without extended disruptions to operational schedules are real ProREZ benefits.

### Long-Term Value in Protection and Performance

The value of the floor coating is comparing its overall cost and maintenance to its long-term performance and durability. ProREZ engineers carefully assess each space considering its unique environmental, functional, aesthetic, and budgetary requirements.

### Customizable Finishes

ProREZ designs and specifies aesthetically pleasing, industrial strength flooring systems available in a wide selection of standard and custom colors, blends, patterns, and textures to complement any facility. Custom designs including special borders, insignias and other useful floor markings can be integrated to enhance overall image, safety, and productivity.

## RECOMMENDED FLOORING SOLUTIONS

### PRODUCTION, CORRIDORS, RECEPTION, & LAB AREAS *(cont.)*

Medium Duty Decorative Quartz Systems (1/16"-1/8"): [ProQuartz](#) | [ProCryl CQ](#)

Medium Duty Decorative Flake Systems (1/16"-1/8"): [ProFlake](#) | [ProCryl CF](#)

Medium Duty Decorative Metallic Systems (1/16"): [ProLumina](#)

### AREAS OF HEAVY IMPACT & HIGH TEMPERATURES

Heavy Duty Solid Color Systems (1/8"-3/16"): [ProKrete SLB](#) | [ProCryl SLB](#)

Heavy Duty Decorative Quartz Systems (1/8"-1/4"): [ProKrete SLQ](#) | [ProCryl SLQ](#)

Heavy Duty Decorative Flake Systems (1/8"-1/4"): [ProKrete SLF](#) | [ProCryl SLF](#)

Innovation beneath your feet.

**ProREZ™ Performance Resins and Coatings** creates individual seamless floor coatings solutions for the diverse requirements within the commercial, industrial and institutional marketplaces including...
