

## **AUTOMOTIVE**

*Service/Repair Bays*

*Showrooms/Offices*

Large dealership or small vehicle repair facility — ProREZ™ offers a broad spectrum of highly functional and decorative seamless floor coatings systems for every type of service and showroom area.

***The ProREZ™ Advantage... Innovation beneath your feet.***

## SERVICE/REPAIR BAY FLOORS

In the service bay areas, our ProREZ™ seamless, non-porous flooring systems are engineered to take the punishment of harsh chemicals, oils, grease, fuels, point-impact from parts and tools, heavy vehicle (e.g. trucks and cars), mobile equipment, and foot traffic. Our service/repair bay flooring systems are hard-working and hard-wearing, with long-term abrasion, scratch, chemical and stain resistance.

Ease of cleaning and maintenance has to be balanced with a range of non-skid textures to eliminate hazard and safety concerns.

Safety, ergonomics, and company image are further enhanced with line striping, safety markings, as well as a flooring finish that is bright and light reflective increasing illumination and visibility within the space. Projecting a clean, bright, well-maintained, and pleasant atmosphere says a lot about your business to staff and customers.

## RECOMMENDED FLOORING SOLUTIONS

Light Duty Systems (20-40 mils): **ProShield SC** | **ProCryl SC** | **ProShield SF-100B**

Medium Duty Systems (1/16"-1/8"): **ProShield SF-200B** | **ProCryl SF** | **ProCryl SLB**

Heavy Duty Systems (1/8"-1/4"): **ProKrete SLB** | **ProKrete RTB** | **ProClad ST**

## SHOWROOM FLOORS

A ProREZ flooring system in your vehicle showroom will provide alluring aesthetics, creating beauty and pristine underfoot and projecting a bright, stylish, and well-maintained appearance to staff and prospective buyers. Combined with a highly durable and hard-wearing finish, our seamless, non-porous flooring systems are easily cleaned and maintained while balancing safety with customizable slip resistance.

We offer a broad spectrum of high-performance, decorative, and value-oriented options in standard and custom colors, blends, patterns, and textures complementary to any showroom décor or theme. Our design development services can also provide color matching and customized company logos. Unlike other conventional flooring products, a ProREZ seamless floor coating system does not require the long-term life cycle costs associated with waxing, buffing, and chemical stripping. These reduced life cycle costs will bring added value to your flooring investment.
